PowerChains Dissemination

1. Outreach to high quality chronic disease prevention care management in both clinical and community settings

Partners:
- Minneapolis Chronic Disease and Prevention Care Management in Both Clinical and Community Settings

Objectives:
- To promote culturally relevant chronic disease prevention care management in both clinical and community settings
- To reduce obesity in children and adults

Dissemination Strategy:
- Community-based organizations
- Media campaigns

COCMP Training:
- 150 employee trained in COCMP

Implementation:
- Secured funding from the Local Rural Health Alliance
- Community groups and lots of municipalities constituents, support from local officials who made the difference in planning for this initiative

Challenges:
- Difficulty attracting other organizations to become partners
- Difficulty attracting other organizations to secure free space for CDSMP classes
- Difficulty attracting other organizations to host CDSMP classes in the hospital service area

Priorities:
