

By signing this form, you agree to be in the _____ Health Home. To be in a Health Home, health care providers and other people involved in your care need to be able to talk to each other about your care and share your health information with each other to give you better care. While being in a Health Home will help make sure you get the care you need, you will still be able to get health care and health insurance even if you do not sign this form or do not want to be in the Health Home.

The Health Home may get and share your health information, including your health records, from partners listed at the end of this form and others who are legally allowed to receive it and/or from others through the following computer systems:

- The Statewide Health Information Network for New York (SHIN-NY) run by the New York State Department of Health. The SHIN-NY collects and stores health information, including medical records, from their doctors and health care providers. The SHIN-NY can only share your health information with the people who you say can see or get your health information;
- PSYCKES run by the New York State Office of Mental Health. PSYCKES is a computer system to collect and store your health treatment from your doctors and health care providers who are part of the Medicaid program;
- TABS/CHOICES run by the New York State Office for People With Developmental Disabilities. TABS/CHOICES is a computer system that collects and stores information about your developmental disabilities;
- The Uniform Assessment System NY (UASNY) run by the New York State Department of Health. The UASNY is a secure statewide database that captures and stores identifying information and completed assessments for each individual that receives services.

If you agree and sign this form, the Health Home and the partners listed on this form are allowed to get, see, read and copy, and share with each other, ALL of your health information (including all of your health information the Health Home obtains from the SHIN-NY and/or from PSYCKES and/or from TABS/CHOICES, and/or the UASNY) that they need to give you care, manage your care or study your care to make health care better for members. The health information may be from before and after the date you sign this form. Your health records may have information about illnesses or injuries you had or may have had before; test results, like X-rays or blood tests; and the medicines you are now taking or have taken before. Your health records may also have information on:

1. Alcohol or drug use programs which you are in now or were in before as a member;

Your health information is private and cannot be given to other people without your permission under New York State and U.S. laws and rules. The partners and the Health Home that can get and see your health information must obey all these laws and rules. They cannot give your information to other people unless you agree or the law says they can. This is true if your health information is on a computer system or on paper. Some laws cover care for HIV/AIDS, mental health records, and drug and alcohol use. By signing this form, you are giving your permission to obtain and share information related to **your HIV/AIDS status, mental health, and drug and alcohol use** to coordinate care and services as needed.

2. Where does my health information come from?

Your health information comes from places and people that gave you health care or health insurance in the past. When you get care from a person who is not your usual doctor or provider, like a new drugstore, new hospital, or other provider, some information, like what your health plan pays for or the name of your Health Home provider, may be given to them or seen by them.
