

Bassett Community Health Navigation Network News

What's Happening?

Trainings:

April Excellus Trainings were sent out in an email to supervisors on 3/20/26

May Excellus Trainings were sent out in an email to supervisors on 4/22/26.

Aids institute continues to offer a variety of trainings. You must have an account on www.hivtrainingny.org to register for the modules. When sending training certificates be sure to indicate the number of hours for each course.

Please continue to send in all training certificates to Bridget to receive credit for the annual training requirement.

Announcements:

NetSmart Updates- Compliance Review Form will be available 5/1/26. This form is intended for Supervisor and Quality staff to use in order to check all charts at enrollment and annually thereafter.

Diagnosis Spotlight

April is National Cancer Prevention and Early Detection Month

There are several preventative screenings to help with the early detection of cancer including but not limited to;

- **Breast Cancer Screening-** Assesses women 40-74 years of age who have had a mammogram
- **Colorectal Cancer Screening-** Assesses adults 45-75 years of age who had appropriate screening.
- **Cervical Cancer Screening-** Assesses women 21-64 years of age who received cervical cytology of HPV testing.

Be sure to note all completed screenings in the GAPS in Care section of NetSmart.

Community Resources

NY Connects

[Welcome to NY Connects!](#)

The website allows you to search for community resources in your community based on your members needs.

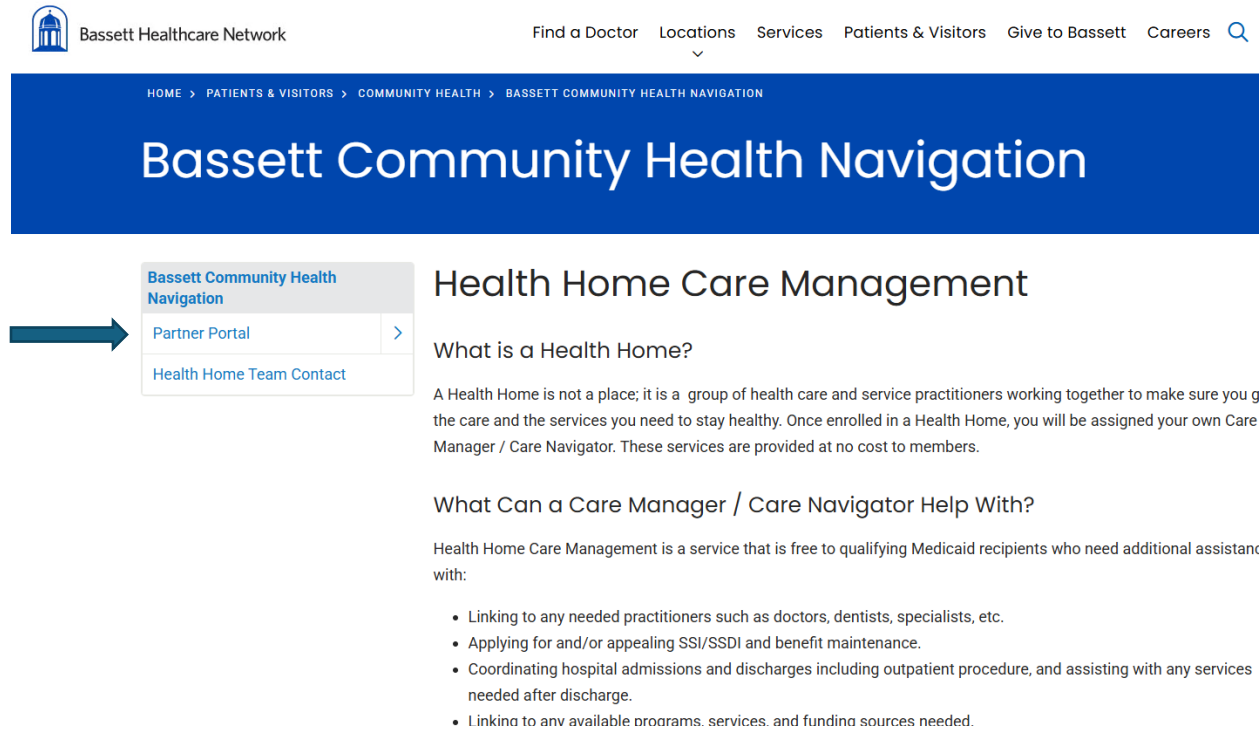

[Find Local Offices](#) this lists local offices by county.

Other Updates

The Bassett Community Health Navigation Partner Portal is in under construction; several updates have been made including policies, meeting minutes and directories.

Main Page- [Bassett Community Health Navigation | Bassett Healthcare Network](#)

Partner Portal can be found here

The screenshot shows the Bassett Healthcare Network website. At the top, there is a navigation bar with links: Find a Doctor, Locations, Services, Patients & Visitors, Give to Bassett, and Careers. Below this is a blue banner with the text "Bassett Community Health Navigation". To the left of the banner, there is a sidebar menu with the following items: Bassett Community Health Navigation, Partner Portal, and Health Home Team Contact. An arrow points to the "Partner Portal" link. To the right of the banner, the main content area is titled "Health Home Care Management" and contains the following text:

Health Home Care Management

What is a Health Home?

A Health Home is not a place; it is a group of health care and service practitioners working together to make sure you get the care and the services you need to stay healthy. Once enrolled in a Health Home, you will be assigned your own Care Manager / Care Navigator. These services are provided at no cost to members.

What Can a Care Manager / Care Navigator Help With?

Health Home Care Management is a service that is free to qualifying Medicaid recipients who need additional assistance with:

- Linking to any needed practitioners such as doctors, dentists, specialists, etc.
- Applying for and/or appealing SSI/SSDI and benefit maintenance.
- Coordinating hospital admissions and discharges including outpatient procedure, and assisting with any services needed after discharge.
- Linking to any available programs, services, and funding sources needed.

If you or anyone on your team are unable to login to the Partner Portal please reach out to BassettHealthHome@Bassett.org for further assistance.

Updated OMIG Audit Protocols are posted under Meeting minutes on the Bassett Community Health Navigation Website.

Other resources are being added so check back regularly to stay as up to date as possible.
