

LAB3232 JAK2 Gene, V617F Mutation, Qualitative

University of Rochester Medical Center

Important Note

Do not freeze

Specimen Type

Lavender (EDTA)

Volume

One 5 mL lavender (EDTA) or one 3 mL lavender (EDTA) bone marrow.

Minimum Volume

1 mL whole blood or 1 mL bone marrow

Unacceptable Conditions

Serum, plasma, or clotted specimens

Transportation Needs

5 mL whole blood or 3 mL bone marrow (EDTA) at 2-8°C.

Stability (from collection to initiation)

Ambient: 24 hours

Refrigerated: 5 days

Frozen: Unacceptable

Methodology

Allele-Specific Polymerase Chain Reaction

CPT Code

81270
